MARCH MADNESS 12 DAYS ONLY! TUESDAY, MARCH 2 - SATURDAY, MARCH 13

Discover the fun of feeding wild birds

HELPFUL WILD BIRD FEEDING HINTS

- A) Bird feeders should be located near protective cover such as trees or shrubs for best results. Shelter them from prevailing winter winds!
- B) Store your feed in a dry and rodent-free place, like a plastic trash can with a tight-fitting lid, or a 5-gallon plastic bucket with lid.
- C) Buy seed in largest quantities available. 50# bags will save you money. An active rural feeding station can use up to 400 lbs. of seed in winter.
- D) Be consistent in feeding birds! Maintain a dependable food supply all winter long. The lack of natural food sources can be dangerous.

WE WON'T BE UNDERSOLD!

- Serving all your bird feeding needs for over 20 years
- Don't forget to pick up all your pet supplies at Friends of Nature, your full service pet retailer
- No One, but No One beats our product selection!
- Bird seed order form available at the store
