

# MAILING SERVICES

## The latest mailing technology + the power of the post office = a lasting & successful marketing campaign!

Express News offers all the necessary services to successfully produce mailings from 100 to over 100,000 pieces. To insure quality, time-effective mailings, we use Video Jet technology ink jetting systems and the most up-to-date computer software approved by the United States Postal Service. This software has ZIP+4 and carrier route coding capabilities to ensure the best possible postage rates available.

- First class, periodical and standard mailings using your mailing permit
- Use of our mailing permit for first class, periodical and standard mailings

In house, we can also provide other mail-related services including:

- Mail piece design for best mailing rates
  - Printing
  - Mailing list management
  - Mailing lists available for purchase
  - Basic, walk sequence, automation and carrier route mailings
  - All postal form completion
  - CDS certified mailing lists
  - Folding
  - Inserting
  - Ink jet labeling on our Video Jet ink jetting system
- Rates are customized to your mailing needs.
